

EB Range

Electric Trailer Brake Systems

REDARC

Features

- Compact in size
- Easy to install
- Remote mount capability (EBRH)
- Manual Override capability (EB & EBRH)
- Suitable for 1 - 3 axle trailers

Description

The Redarc range of electric trailer brake controllers provide an easy to operate method of controlling electric brakes on a trailer, camper-trailer, boat trailer or caravan.

- A GREEN light from the LED indicator means that a trailer with electric brakes is plugged in.
- Application of the brakes from either the foot brake or the manual button on the controller will change the LED to a shade of RED.
- The shade of RED indicates to what level the brakes are applied.
- The adjustment knob will set the level of braking or the trailer brakes, when applied by either the manual button or the foot brake.

General Specifications

	EB	EBRH	EBTM	EB24A
Number Of Axles	Up to 3 Axles			
Dimensions	50x100x30			135x70x50
Weight	200g		300g	500g
Mounting	2 x M3 holes			Notched H/S
Indication	RED/GREEN LED			N/A
Connections	Flying Leads			
Input Voltage	12V			24V
Protection	Reverse Polarity, Short Circuit.			
Current Limit	Electronic, self-resetting			
Efficiency	>90%			
Ambient Temperature	OPERATING; 0 - 60 °C, STORAGE; -10 - 70 °C
