## Organisational Structure – REDARC Electronics

Redarc Electronics is pleased to announce the appointment of Mr Lino Cardone as Engineering & Technology Manager.

Lino has a number of qualifications including a Bachelor of Technology (Electronic Engineering) and a Graduate Diploma of Business Administration. He brings a wealth of experience to REDARC with over 20 years electronics design experience.

Since July 2006 he has been working as a Senior Consultant for Booz Allen Hamilton leading the rapid design and acquisition of vehicle installation kits for the Land Systems Division of the Defence Material Office.

Prior to that Lino was employed at Mitsubishi R&D Australia in a number of roles over a 15 year period including Manager, Electrical Engineering & Interior Design. During this time he was responsible for establishing the Electrical Engineering Design Department.

Lino has worked for Mitsubishi in Illinois, USA for 15 months and for the Australian Submarine Corporation (seconded to Kockums Marine AB) in Sweden for over 3 years involving design of electrical power systems.

Managing Director, Anthony Kittel, said that “the appointment of Lino Cardone along with the two other most recent senior appointments of Tom Sulda, Project Manager and Milan Grcic, Quality Manager will further provide the high calibre skills required for Redarc to ensure our products and processes are at World’s best practice”.
